Daily Micronutrient Consumption as a percentage of Kilocalorie Intake

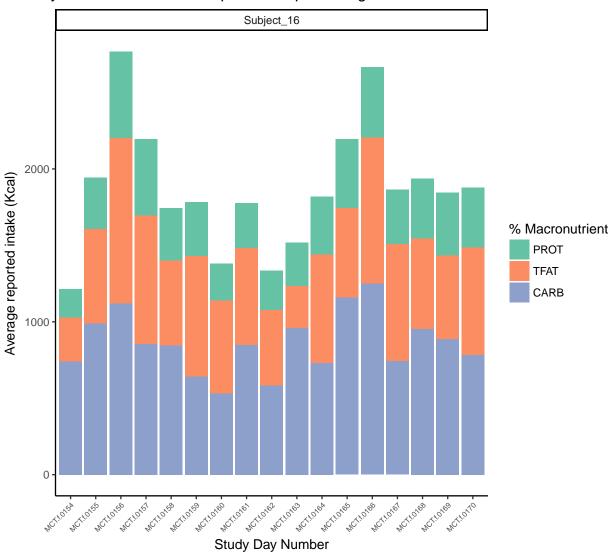

Figure 1: Figure 1 visualizes day to day variation in your consumption of micronutrients viewed as a percentage of total kilocalorie intake.

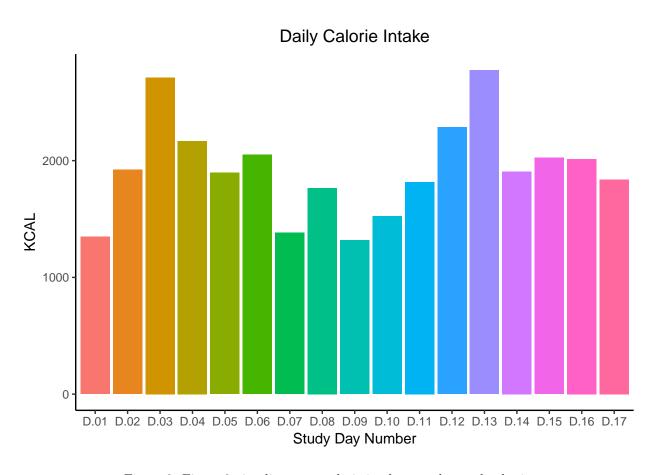

Figure 2: Figure 2 visualizes your calorie intake on a day-to-day basis.

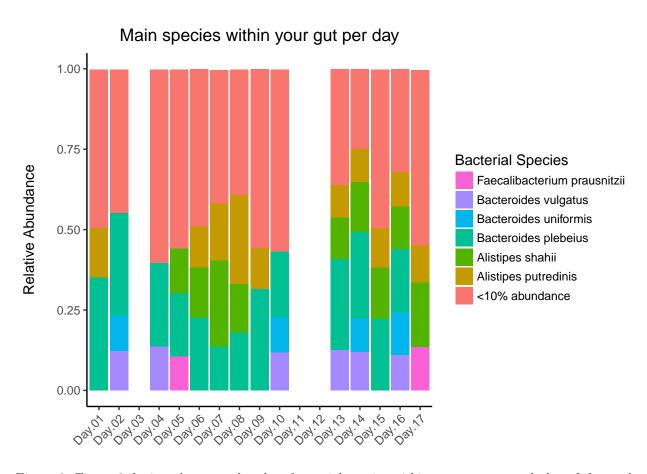

Figure 3: Figure 3 depicts the most abundant bacterial species within your gut per each day of the study. The "<10% abundance" column represents a sum of bacterial species that individually account for less than 10% of

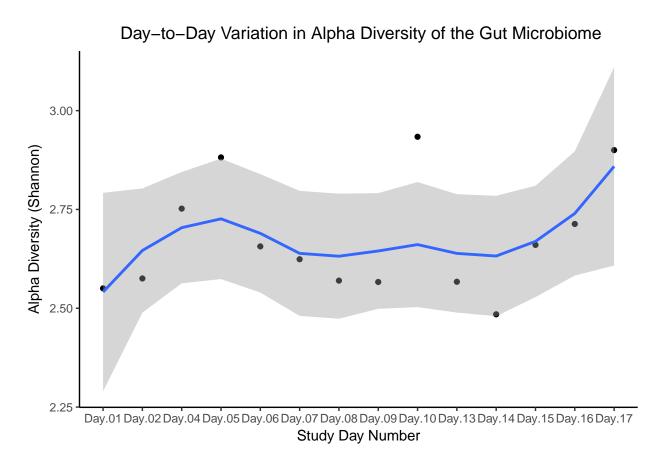

Figure 4: Figure 4 details how the bacterial diversity exhibited within your gut changes on a daily basis.

Figure 5: Figure 5 is a plot that represents how dissimilar certain individuals microbiomes are relative to each other. The shape corresponding to your (subject number) represents your microbiome - multiple of the same shapes correspond to each of the multiple days of testing.
